

**Release Reporting Advisory Committee
Historical Releases Workgroup
Meeting
April 4, 2008**

Location: DEP Headquarters, 79 Elm Street, Hartford, Conference Room 4D
Time: 1:00 pm to 3:00 pm

Agenda

Goal: To refine workgroup recommendations that will be presented to the Release Reporting Advisory Committee.

Comments – Peter Zack - I don't think there has been an overwhelming consensus by the group in general on how release reporting will address historic releases. I would like to work on the definition of a historic release vs. an observed spill so we are all on the same page. It has been pointed out that many "historic" releases are reported now under other statutes and regulations. Ideas to address existing reporting for historic release were identifying exceptions in the release reporting regulations or conversely somehow creating one notification point for all reporting requirements.

If any members cannot make it to the DEP Hartford headquarters but would like to conference call in, contact peter.zack@ct.gov or 860-424-3337 to make arrangements.
